

Marquis®

Beaver®

Different by Design.

LUXURY

Try to describe the 2009 Marquis, and you'll discover it redefines every quality of a luxury motor coach. Top of the line has a whole new meaning when you take a closer look at the craftsmanship of its woodwork, its stylish comfort, its sophisticated technology and its fine-tuned performance. From the stunning granite tile floor to the high-gloss countertops to the intricate ceiling detail, the Marquis is designed to render you speechless. Until you realize all this could be yours. Then, there's only one word left. Wow.

THE MARQUIS MYSTIQUE

The Marquis' woodwork begins with hardwood cabinets and rare burl inlays. A unique high-gloss finish allows the natural grain and tones of the wood to shine through. The result is a rich, lustrous look you won't find anywhere else.

STYLE

The Marquis turns every convenience into an expression of style. Where else could you find such a beautiful wineglass cabinet? Or accents like the sculptured glass splash guard and granite tile backsplash design? Only here — in a coach that takes every detail to a higher level.

COMFORT Customize your experience on the road with the Marquis' many optional amenities. Choose the cozy leather sectional booth dinette (shown above) or the state-of-the-art central vacuum system (shown at right). From cooking to dining to cleanup, the Marquis brings ease and comfort to every meal.

INTELLIGENCE

In the cockpit, fully-adjustable power seats help you avoid driving fatigue. The pilot's seat features memory capability, while the co-pilot's has a footrest for added comfort. A huge, 40-inch LCD television drops down from the ceiling for easy viewing throughout the living area, and it's paired with a premium Bose® home theater system with surround sound speakers.

CONTROL

Every cockpit feature is organized for fingertip control when you're at the helm. Nothing compares to the feel of the leather, lighted VIP Smartwheel®, and a color monitor provides a superior view of the rear vision system. A GPS navigation system with touchscreen comes standard, and a passenger-side screen is a convenient option for the navigator in the family.

DISTINCTION

Style and elegance extend to the Marquis' bathroom with its many unique details, including a mosaic tile vanity backsplash. The solid surface shower features a decorative tile inlay design that's visible through the clear glass door.

SANCTUARY

No matter what adventures fill your days, you'll always come home to the plush comfort of the Marquis' bedroom. New 30-inch bed slide-out boxes (not available on Moonstone III) add even more spaciousness, and you'll enjoy numerous extras, including an optional ceiling fan and an optional 32-inch LCD TV with a Bose® entertainment system.

POWERED BY CATERPILLAR®

New for 2009 — the Marquis comes standard with the jaw-dropping power of the Caterpillar® 600 HP C-15 engine and 1,850 lbs./ft. of torque. Just listen to it purr.

The other big news for 2009 is the optional CAT® 625 HP C-15 with a whopping 1,900 lbs./ft. torque at 1,200 RPM. Series turbo charging gives this beauty incredible responsiveness.

POWER The Marquis' road-taming power is reflected in its sleek exterior with deluxe, full-body paint and polished aluminum wheels. For comfort when you're parked, the coach is equipped with a complete Girard® awning package. Shown below is a full pass-through slide-out storage tray for easy retrieval of the things you stow below. An optional electric slide-out tray makes life on the road even easier.

- 1 10,000 lb. hitch receiver offers powerful towing capacity with 7/4-way trailer plug. Or choose the optional 15,000 lb. hitch receiver for extra towing capacity.
- 2 Caterpillar® 600 HP C-15 Engine.
- 3 Allison® 4000 MH 6-speed transmission for smooth shifting; our exclusive use of synthetic transmission fluid allows for up to three-year maintenance intervals.
- 4 Cushion Air-Glide suspension system positions ten shocks and ten air bags, eight of which are outboard mounted with auto-leveling for greater stability, a smoother ride and the best handling in its class.

6-LAYER LAMINATED GEL COAT FIBERGLASS SIDEWALL CONSTRUCTION (LEFT TO RIGHT)

- › Gel coat fiberglass outer wall
- › Luaun paneling
- › Heavy-gauge tubular steel and 4" steel plate backers
- › State-of-the-art closed cel foam seals every nook and crevice
- › Luaun paneling; walls are Vac-U-Bonded for added strength
- › Decorative wall coverings

- Unique three-degree rear axle tilt aligns the engine, transmission and differential, minimizing stress on the drivetrain and reducing noise and vibration in the coach.
 - Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control.
 - Tag axle lifts for added maneuverability in tight spots.
- 5 Full-length frame rails fabricated from 3" by 8" by 1/4" 60,000 PSI structural steel; rails are spaced 44" on center for a wider stance and unmatched strength.
 - 6 The semi-monocoque design, with trussed superstructure, distributes stress evenly throughout the entire chassis and adds strength to sidewalls and bays.
 - 7 Dual ping air tanks with 3/4" air lines for quicker response and improved ride and handling.
 - 8 P295/80R Goodyear steel-belted, all-season tires ensure a safe and quiet ride (G670 RV tire).
 - 9 The R.H. Sheppard power steering box allows for a 50-degree front wheel turn angle in both directions for better maneuverability and returns the steering wheel to its center position to eliminate driver fatigue.
 - 10 All chassis are equipped with steel cage construction, steel firewall and steel stepwell for added safety.
 - 11 Accuride rim with AccuShield coating that cleans easily with soap and water.
 - 12 Multiplex wiring, used throughout the coach and chassis, replaces cumbersome bundles of wire with separate modules. These modules communicate via a single wire, making servicing easier and reducing the overall weight of the RV. A service technician can simply hook up a laptop directly to the modules for easy troubleshooting.

5-LAYER FLOOR CONSTRUCTION

(TOP TO BOTTOM)

- › Tile or 1/2" carpet pad and carpeting
- › Dyna-span flooring provides strength and durability
- › Decibel layer intercepts and dampens road noise
- › Dyna-span flooring
- › Waterproof fiberglass underbelly provides moisture barrier

8-LAYER MOLDED FIBERGLASS ROOF CONSTRUCTION

(TOP TO BOTTOM)

- › One-piece 1/4" fiberglass roof is crowned for easy water runoff and seamlessly joined with front and rear caps
- › Vapor barrier
- › 3-1/2" tapered bead foam supports the crowned roof; center tunnel houses wiring and air conditioner ducts
- › 1/4" marine grade plywood sheeting
- › Heavy gauge tubular steel framework
- › State-of-the-art closed cell foam seals every nook and crevice
- › Luaun and vinyl paneling are Vac-U-Bonded
- › Padded vinyl interior headliner absorbs sound and is easy to clean

ELEGANCE The fine-tuned performance of the flagship Marquis is matched only by the exquisite beauty of its decors and the craftsmanship of its cabinetry. Choose the color that takes your breath away and combine it with one of our signature wood styles — to create a motor coach that's as distinctive as you are.

¹ Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

² All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Beaver Motor Coaches provides a weight sticker on each unit we produce

which includes that unit's tank capacities and approximate weight. Consult your local Beaver Motor Coaches dealer for unit availability and further information.

The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name which will result in comparable performance.

All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on Beaver Motor Coach models. Beaver Motor Coaches, the Beaver logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders. While the color of the motorhome's exterior and the

interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the photographs within the sales brochure.

Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order. Component part and appliance manufacturers issue limited warranties covering those portions of the recreational vehicle not covered by the Limited Warranties issued by Monaco Coach Corporation. To learn which specific component parts and appliances are excluded from the Limited Warranties issued by Monaco Coach Corporation, please contact your selling dealership or Monaco Coach Corporation directly, or review the warranty packet inside the recreational vehicle.
