CHEETAH

SAFARI

# CHEETAH

*BEST KNOWN for its incredible bursts of speed, the cheetah has called Africa home for nearly four million years. Unlike other large cats, the cheetah does not roar. It communicates by "chirping" and purring. We find that many of these attributes are mirrored in the aptly named Safari Cheetah. Fast, powerful and quiet*

## LIVE LARGE WITH

The Cheetah's living space is abundant. The two slide-outs that come standard on all models ensure you have plenty of room to roam. Add a third slide-out for even more space. One feature Cheetah owners

love most is the roomy four-person dining area. You can dine with friends or family or even use the space for a friendly card game. There's no doubt that the dining table will

# TH SPACE TO ROAM

be a popular gathering spot. Of course, it may have to compete with the spacious living room seating when it's time for a movie on your 20-inch stereo television. Add the booth dinette and hide-a-bed (available in many models) and you can convert your seating to even more

room for sleeping.

# EXTERIORS

Cheetah exteriors are beautiful and durable. Color schemes and designs created by Safari reflect the flow of a Cheetah on the move.

Each coach is carefully painted by a trained team at our state-of-the-art facility.

The longevity of these attractive finishes is assured by protecting the automotive paint finish with a beautiful, resilient clear coat.

# CHEETAH FLOORPLANS

Safari's newly expanded floorplans provide many options. The Cheetah is available in three floorplans – all are livable, spacious and brilliantly designed. Whether you're in search of a 33 or 37-foot model, you'll be delighted with the choice of options presented here, complete with the option of double or triple slide-outs.

OPTIONAL WOOD

CHEETAH'S ENGINEERING GENIUS is clear when you look at our slide-outs. Even when the slides are extended to provide you with more living space, you can still easily access the expansive storage bays beneath the coach. That's because the secure exterior storage bays extend with the slides.
