

**SIMBA® 2006**  **SAFARI®**

**Live out loud.**

---

> > >

Are you ready to step up to the excitement of a full-size motorhome? Then you're ready for the 2006 Simba. This beauty is big on quality, big on features and, with its seven foot ceiling height, just plain big. You can count on Safari to give you the most versatile floorplans and a wide range of furnishings. Shown here is the convenient booth dinette with an adjustable side-sliding table top, roomy storage drawers and forward-facing seat belts.

SMOKE TREE INTERIOR WITH  
NEW VINTAGE OAK | 37PBD

In the cockpit you'll find everything you need for more comfortable drives, with soft touch vinyl seats and a well-organized automotive dash. And you won't have to look around a center black rubber seam, thanks to our exclusive Panaview™ 1-piece windshield. The coach is also prepped for an optional rear vision system with audio and an adjustable camera.

 **PANAVIEW™**  
1-PIECE WINDSHIELD

On longer trips you'll enjoy the convenience of a large double-door refrigerator. A refrigerator with an ice maker is optional, as are the woven insert panels which match the overhead cabinet doors. The galley features the contemporary styling of a solid surface radius profile countertop, and in the ceiling is an attractive skylight with a pleated shade.

*The 2006 Simba is the best value in its class.*

*What a great find!*

SMOKE TREE INTERIOR WITH NEW VINTAGE OAK | 37PBD

> > > Select floorplans feature an impressive bedroom window in the coach's rear cap, providing an open, airy feel — and the spaciousness is further enhanced by the new, deeper 30-inch bed slide-out. The queen bed is flanked by nightstands and has a decorative wood grain headboard. And in the 33PBD and 37PBD floorplans, you have the convenience of a large wardrobe closet with mirrored doors, shown here. For relaxing in style, you'll find a 20" TV (optional on 30PDD) neatly housed in a swing-away cabinet (stationary on the 36DBD).

The Simba's outstanding quality and craftsmanship are reflected in its head-turning exterior. The coach sports new gel coat fiberglass sidewalls, a one-piece peaked fiberglass roof, a rear ladder, and power heated remote exterior mirrors. In addition, the bed-side slide-out housing has been increased to 30" for more living space. Some options include a 3M film front mask and a full-length mud flap (shown here).

Our side-hinged baggage doors are easy to open and give you superior visibility and better access to the luggage and gear you stow below the coach. Pass-through storage bays are perfect for larger items, and the rotocast boxes are a snap to hose down.

## >>> SmartStructure II: Stronger and Better.

The SmartStructure II achieves overall chassis strength by optimizing the inherent benefits of strain-hardened steel in conjunction with an aerodynamic metal removal principle to allow stress flow in the truss system to evenly distribute both static and dynamic loading across the coach platform. Integrity is stamped into the truss system instead of relying on the welds of the tubular structure. This equates to 40% fewer welds and strategically located metal removal to reduce the overall chassis weight and provide for greater carrying capacity. SmartStructure II is fully integrated with your choice of Workhorse or Ford chassis.

Shown here is the Workhorse chassis' Vortec 8100, 8.1L V-8 engine. It features 340 HP and 455 lbs./ft. torque. The Ford chassis comes standard with a 6.8L 3-valve V-10 engine with 362 HP and 457 lbs./ft. torque.

### MULTI-LAYER FLOOR:

- A Carpet, pad and laminated tile
- B Structurwood™
- C Blue foam block insulation
- D 1-1/2" aluminum frame
- E 3-layer poly-ply underbelly (New material allows for waterproof bottom on coach and sound resistant/deadening properties)

A B C D E

### 5-LAYER EXTERIOR WALL:

- A Interior paneling
- B 3/4" bead foam adds comfort, saves energy and provides a thermal insulation barrier
- C Vapor barrier
- D Interlocking C-channel filled with 1-1/2" fiberglass insulation bonded in place so it doesn't sag or leave spaces uninsulated
- E High-gloss gel coat fiberglass (33' - 37' floorplans)

## THE STRENGTH OF ALUMAFRAME®

Thanks to our Alumaframe® Superstructure, your Safari coach is built to take on anything the road can dish out. We revolutionized the industry by replacing outdated wood and tubular aluminum construction with our exclusive system of aluminum

C-Channel crossmembers. These run the full length of the coach, with double-welded intersections for superior strength. This makes your Safari lighter and sturdier than other coaches and gives you reliability you can count on down the road.

### 9-LAYER ROOF CONSTRUCTION:

- A One-piece peaked fiberglass roof
- B Luaun backing
- C Thick, tapered bead foam insulation
- D Fiberglass insulation
- E 3" aluminum double I-beam superstructure
- F Vapor barrier
- G Structure foam: thermal insulative barrier
- H 1/2" bead foam insulation
- I Foam padded vinyl ceiling for extra insulation

## ANOTHER STANDARD FEATURE: PEACE OF MIND.

As a Safari owner, you can be sure we're standing behind you. Wherever your travels lead, you can count on us to be only a phone call away. Our staff is available 24/7/365 to help you with virtually any situation that may arise — with troubleshooting, operational instruction or facilitating repairs at the nearest of our 350 nationwide service centers. In addition, you'll be enrolled in our Owner Advantage Roadside Assistance Program free of charge for your first year of ownership — providing additional emergency assistance, including towing, tire repairs and many more services around the clock. In short, when you purchase an RV from Monaco Coach Corporation, you get a wider array of benefits than any other manufacturer can offer. To see it all for yourself, call 1-800-634-0855 or 1-800-650-7337 to arrange a tour of one of our state-of-the-art production facilities in Oregon or Indiana.

\* Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your Owner's Manual for further towing information.

\*\* All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

\*\*\* Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

Component part and appliance manufacturers issue limited warranties covering those portions of the recreational vehicle not covered by the limited warranties issued by Monaco Coach Corporation. To learn which specific component parts and appliances are excluded from the limited warranties issued by Monaco Coach Corporation, please contact your selling dealership or Monaco Coach Corporation directly, or review the warranty packet inside the recreational vehicle.

Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Safari provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Safari dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on Safari models. Safari, the Safari logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders.

While the color of the motorhome's exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the photographs within the sales brochure. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated.

## Live out loud.

Now we've done it. We've taken the luxury motorhome and given it a fun streak. And to top that, we've made it exceedingly affordable. Yes, we're happy to introduce the rebellious new 2006 Safari lineup. While we invite you to compare these super-sized values with other motorhomes, we won't be surprised if you cut to the chase and hit the road in a new Safari. Because we know how you love a great deal.
