THE WAVE OF THE FUTURE.

BY FOREST RIVER

Tsunami

THE WAVE OF THE FUTURE.

Tsunami BY FOREST RIVER
Rising up on the horizon, casting a long shadow over all other vehicles in its path, the Tsunami luxury motorhome from Forest River is a revolutionary fusion of form and function.

POWERFUL.  DYNAMIC.  SWEEPING.  GRACEFUL.  EXHILARATING.
DRIVE IN COMFORT.
Tsunami’s space-age ergonomically designed cockpit puts everything within arm’s reach. A tilt/telescopic “Smart Wheel” upgrade stereo CD changer and motorized flip-up rear view mirror that hides away when not in use are just some of the convenient features.

Luxury comes with expectations.
Tsunami exceeds them all. From the moment you step into the all-new Tsunami by Forest River, you are attracted to the rich elegance found throughout the entire coach.

32” PLASMA TV.
Easily seen from anywhere in the living quarters, this optional high-definition beauty brings every movie to life.

SEPERATE BUT EQUAL.
Both pilot and co-pilot enjoy the ability to control their own “space” with deluxe dual zone automotive heat and A/C controls.

UNIQUE STYLE.
This residential style cast iron vessel sink highlights a spacious bathroom arrangement with oversized shower and separate commode room.
Combining incredible style with expansive living space, the galley of the Tsunami offers more than enough room to prepare even the most elaborate meals. The optional stainless steel Advantium™ oven and dishwasher help transform this coach into a true home away from home.

Setting New Standards in Affordable Luxury.

Combining incredible style with expansive living space, the galley of the Tsunami offers more than enough room to prepare even the most elaborate meals. The optional stainless steel Advantium™ oven and dishwasher help transform this coach into a true home away from home.
This optional four-door Norcold™ refrigerator with ice maker offers all the comforts of home so you’ll never lack for food storage space.

Exceptional Finish and Attention to Detail.

This spacious Tsunami model (3704WS) features our stately Frosted Maple cabinetry, one of five custom crafted hardwood interiors to choose from – each offering Corian™ countertops, elegant lighting and upgrade flooring. The designer hutch with pull-out pantry offers additional counter and storage space.

FLIP-DOWN TV.
This convenient flip-down television provides extra headroom and convenience.

RELAX.
Dual slide-outs in the bedroom host an abundance of storage and combine with exquisite lighting to form a great place to retire for the evening.

ROOMY.
This optional four-door Norcold™ refrigerator with ice maker offers all the comforts of home so you’ll never lack for food storage space.
Designed with Your Comfort in Mind.

When we decided to build the best motorhome in the business, we did a lot of research, asking experienced RVers what they were looking for in an affordable luxury coach. Our uniquely designed lounge dinette features stylish Comfort by Design™ seating and offers a relaxing spot to enjoy meals, play games or just visit with friends.

CONVENIENT. Tsunami’s engineers carefully designed this easy-to-get-to electrical compartment, complete with wiring diagram.

ACCESSIBLE. Every area of the Tsunami has been well thought-out and organized for your convenience. The dump station offers electronic control and water pump switch.

INNOVATIVE. The Tsunami’s ManaBloc™ central water distribution system eliminates elbows throughout the water system and provides a direct line to fixtures with individual shut-off control.

PURE. Tsunami’s Three-Stage Water Purification System offers dual hi-flow water pumps to help maintain water pressure during multiple uses.

CAVERNOUS. Tsunami’s side opening exterior storage doors allow for greater accessibility and easy access to recreational and cargo-protected cargo areas. Our above-floor slide-out systems allow for increased storage space below.
Beneath the Beauty Lies the Beast.

It is both quality of construction materials and innovative engineering techniques that have set the Tsunami apart from the competition. Tsunami’s extraordinary amount of strong, tubular steel is integrated with the chassis to form the basis of our uni-body, "steel cage" construction. With this ultra-strength steel skeleton as a foundation, Tsunami’s engineers have utilized superior vacuum-bond lamination processes that make our floor, sidewall and roof systems the strongest, most durable in the industry.

By taking the time to integrate each structural component with both the chassis and each other, we are drastically improving the Tsunami’s ability to take the wear and tear of road travel. This means that each Tsunami is built to stand the test of time – from the inside out!

**Vacuum-Bond Laminated Roof System**
1. One-Piece Molded Fiberglass Crowned Roof (Seamless)
2. Lauan Plywood
3. Structurally Engineered Block Foam Insulation
4. Lauan Plywood
5. Tubular Aluminum Framing with Block Foam Insulation
6. Lauan Plywood
7. Foam Padding
8. Vinyl Interior Headliner for Easy Maintenance

**Vacuum-Bond Laminated Floor System**
9. Sturdy Plywood Flooring
